

**Commercial/Industrial multi-function portable fly trap.**

Unit combines ultraviolet light, special attractants to lure flies, and a large capacity exclusive auto advance replaceable cartridge.

**Designed for use in:**  
**Commercial Kitchens**  
**Bakeries**  
**Food Processing Plants**  
**Supermarkets**  
**Warehouses**  
**Hospitals**  
**Food Preparation Areas**  
**Poultry and Egg Ranches**

Attracts flies from both sides using 2 bulbs for high catch results. Can be ceiling hung.

Terminator's high volume cartridge system traps 20 times more flies than glueboard units.

Without poison or electrocution (no scatter of bug parts) the effective, environmentally safe way to control flies.

**Flies Love  
It To Death**

# Paraclipse™ Terminator -

## Commercial/Industrial multi-function portable fly trap.

### FEATURES

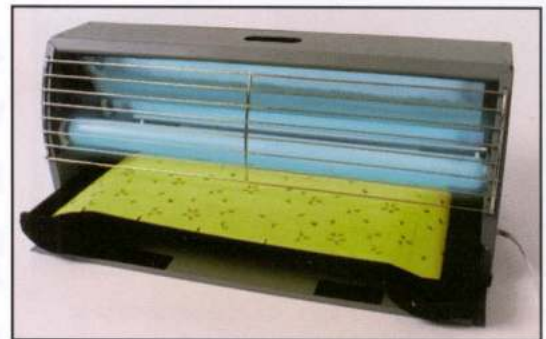

- Specially engineered flying insect attracting device for commercial/industrial use
- Highly effective combination of special UV light, attractants and trapping surface
- The trapping system is environmentally friendly—unit has been designed for use in food handling areas and meets applicable guidelines.
- Versatile design
- Exclusive automatic advance 45 day cartridge trapping system
- Extra large capacity disposable cartridge
- Two speed cartridge advance motor
- Used cartridge replacement alarm
- Ultraviolet Bulb Booster Reflectors
- Easy to maintain and easy to clean with a protective grill that swings up for easy access to lamps for replacement/cleaning
- Integrated pest management (IPM) design

### BENEFITS

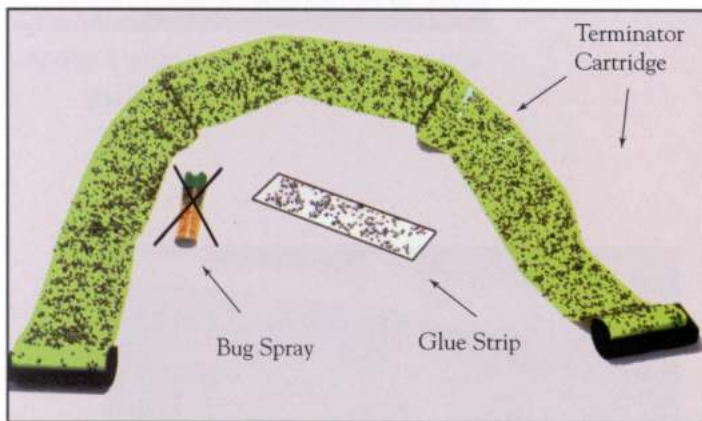

- An effective 'terminator' of flying insects
- Draws flies to the trapping surface—keeps them trapped
- No hazards to your customers from chemicals or unsanitary scatter of insect parts
- Can be used as a free-standing portable unit or ceiling hung.
- Eliminates large quantities of flies with sanitary handling
- Holds up to 20 times the capacity of glueboard units
- Provides increased catch surface for heavy duty fly control
- Audible alert to replace used cartridge
- Increases the outward reflective power of the UV bulbs
- Effective flying insect control that doesn't make extra work for you or your staff
- Provides both fly control and monitoring function

Unit measurements are 23 1/4" wide, 10 1/4" high and 8 3/4" deep

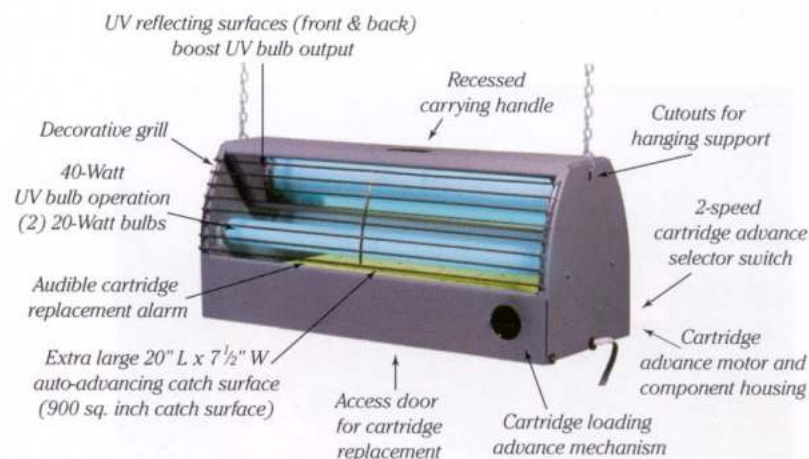

Used cartridge replacement alarm signals reminder to replace cartridge. New cartridge installs in seconds.

A standard glueboard simply can't match the fly-catching capacity of the cartridge in the Terminator. Terminator's cartridge has a continuously moving surface of almost 900 sq. inches of trapping area. A standard glueboard has only 68 sq. inches. The result - Terminator's cartridge holds up to 20 times the capacity of glueboards. Each Terminator cartridge can trap over 4,100 flies.
